IMPRESSIONS designer wood veneer surface is the 21st century bridge to an environmentally conscious world that uses sustainable, earth-friendly materials. Enjoy the beauty and charm of burls and exotic woods at a fraction of the cost.

Whether you choose an existing exotic veneer, burl veneer or create a custom designed veneer for your next application, a value engineered option is available with **IMPRESSIONS**. Our in house design team is ready to incorporate your design elements with Impressions. Sequencing panels and color match are effortless with the infusion process. The possibilities are endless and the appearance is timeless.

We are able to merge the digital imaging with nature, for a unique look. We can create or replicate about any digital pattern or image needed for your projects.

With **IMPRESSIONS**, creating custom colored inlays and logos while supporting LEED certification and utilizing NAUF, FSC®, and Fire-Rated components has never been easier. Call us at (843) 846-4648 or email us at sales@greenlineforest.com.
